

MAKE A CAREER OUT OF MAKING A DIFFERENCE

At this time of year, we're reminded of what's truly important—faith, family, friends ... Are you as fulfilled in your career as you are in your personal life?

Consider a career as a financial representative with Thrivent Financial. You'll have the opportunity to change lives for the better, including your own.

As a Thrivent Financial representative, you would:

- Provide financial guidance to Christians, helping them connect their faith and finances.
- Help members strengthen churches and other groups they care about in their community.
- Have the freedom of working independently and running a business.
- Build meaningful relationships with members through one-on-one guidance and community action.
- Be eligible to receive the kind of benefits package expected from a Fortune 500 organization.
- Receive strong paid training to help launch your career.

Does this sound like a fit for you or someone you know? Let's talk.
